AGILE FOR EXECUTIVES

“Agile is not just a methodology, a specific way of developing software, or a framework/process. Agile is a philosophy, a set of values and principles that changes the way we work, the way we deliver and the way we lead.”

**Do you want to get products to market faster?
Want to deliver what your customer really wants?
Then this Agile course is for you.**

COURSE FOCUS

The Agile for Executives course will challenge you to think differently while helping you to understand the technicalities around Agile. Join this half-day Agile for Executives workshop to understand the different mindset required to run Agile teams and Agile delivery. Also grasp why Agile is so popular and the benefits it has for an organisation and teams.

THE BENEFITS OF AGILE

- ✓ **INNOVATION** – Active management kills innovation. Agile leadership fosters an innovative culture.
- ✓ **DELIVER VALUE** – Agile teams delivery value more frequently because we only spend time on what matters today.
- ✓ **EARLY RETURN ON INVESTMENT** – Agile teams can put a product into market in smaller increments realizing value sooner. It allows business to be more innovative and see results sooner.

- ✓ **ENGAGNED TEAMS** – Motivated teams are the most efficient, productive and innovated. Agile ways of work are designed to get the best for your investment.
- ✓ **PREDICTABILITY** – Predictability helps us to reliably make and meet commitments to our customers, and manage our budget more accurately with less risk of failure.
- ✓ **QUALITY** – Higher quality comes from more frequent testing.
- ✓ **CONTINUES IMPROVEMENT** – Agile teams consistently improve. Agility allows opportunity to inspect and adapt so that we stay relevant.
